Quality reference conform norm IPC-A-610F

ACE electronics is using as a reference for the needed quality of all electronic assemblies the norm IPC-A-610F, named "Acceptability of Electronic Assemblies – July 2014"

All activities are carried out in accordance with the recommendations of this IPC-standard although the personnel in production is administratively not IPC-qualified.

Together with all customers, the delivered quality is monitored continuously at all levels in the spirit of this IPC-standard and, where necessary, adjusted during the production process..

The results are registered and reported on a regular base in accordance with the guidelines stated in the internal ISO-9001:2015 quality system.
